

## ROAD SAFETY POLICY

DG-PLT-03

TUBULAR RUNNING & RENTAL SERVICES SAS is committed to establish activities for the promotion and prevention of accidents on public roads. For this reason, all suppliers, subcontractors and own personnel provided with company vehicles or third parties for the exercise of their daily work, are responsible for participating in the various activities that the company schedules and develops to continuously improve and reduce the probability of accidents that may affect the physical, mental and social integrity of THE personnel, customers, contractors, subcontractors, the community and / or the environment.

The following measure are based to comply with this purpose:

- Comply the law requirements that are applicable, which are marked in principles such as safety, quality, and conservation of a healthy environment and the protection of public space.
- Monitor the responsibility of suppliers, sub-contractors and employees, in preventive and corrective maintenance, in order to maintain optimal performance of their vehicles, establishing control measures to avoid the occurrence of accidents that may cause harm to the individual, clients or third parties.
- Establish awareness strategies for officials through orientation training on the prevention of traffic accidents and respect for vehicular traffic signs, which allow the adoption of proactive behaviours such as defensive driving.
- Employees and sub-contractors are responsible for the application of the provisions established and disclosed by TUBULAR RUNNING & RENTAL SERVICES S.A.S.

The Management area will allocate the necessary financial, human and technical resources to comply with this policy.
